The Northern California Chapter of the AVS will convene its 2022 Technical Symposium around the topical theme of “Novel Materials, Processes, and Devices for a Green Future” The Symposium will be held in person at the Fremont Marriott Silicon Valley, and focus on technologies that include, but are not limited to these areas:

- Energy Production and Conversion Efficiency
- Transportation (e.g. Energy Storage, Fuel Cells)
- Materials Synthesis
- Biomaterials (e.g. biofuels, biodegradable, etc.)
- Energy Efficient materials
- Catalysis

We encourage scientific and engineering professionals, and students, from academia, government labs, OEMs, end-users, and materials suppliers to provide contributed talks to the Symposium.

The symposium will provide an international forum for academic researchers, industrial practitioners and engineers from around the world for the exchange of information on state-of-the-art research. The NCCA VS promotes the exchange of opportunities, ideas, friendly relationships and research collaboration.
